

St. Gregory's women's EURO Challenge

With the Women's European Championships about to start, we thought it was a good excuse to bring some healthy competition back into our school.

Following on from our *Euro 2020 Challenge*, the Women's Euro will see each child in school take part in a sweepstake, which will provide them with a country to support during the competition. Your chosen country will earn you points, which will be added together at the end of the tournament. The House team with the highest overall points total will receive a reward in September – to be decided by next year's House captains (it may be their first job!).

Points System:

- Every point earned by a country will be a point earned for the children. For example, should Spain win a game, all children who chose Spain will receive 3 points too! A draw means 1 point for each child involved. However, there are no points for a defeat (sorry!)
- After the group stage, when some countries will be eliminated, you shouldn't lose hope. Others in your House may have different teams and those teams may go all the way to the Final.
- Keep an eye out for your country's results – you should be able to work out how many points you have.

With the competition set to kick off on Wednesday 6th July 2022, the children will be choosing their teams next week.

There will be no cost to enter. This challenge is designed simply to provide a little bit of fun for the children and to raise their awareness and interest in the Women's Euros and women's football in general.

We are very passionate about girls' football at St. Gregory's and we hope this event inspires our girls and boys to get involved in football in any way they can!
